

Wiper Blades

Ford recommends replacing your wiper blades when they become worn for optimal visibility in rain, slush and snow.

Upon inspection of your vehicle by a Ford-trained technician, we have determined your wiper blades require replacement.

WHAT DOES THIS MEAN?

Because wiper blades are made of rubber, they wear out over time. Wear can be due to usage and exposure to sun and the elements. Replacement intervals vary depending on UV ray exposure, atmospheric and driving conditions and usage.

Ensure you are replacing your wiper blades when necessary for a clean, clear, streak-free wipe.

In rain, slush, snow and ice, there are Motorcraft® wiper blades for every season!

- Original Equipment Blades
- Premium Flat Blades
- Winter Wiper Blades

Ask your service advisor what wiper blade is right for your vehicle!

SOME COMMON SIGNS THAT YOUR WIPER BLADES MAY NEED TO BE REPLACED:

CHATTERING OR SQUEAKING SOUND

Chattering or squeaking sounds may be the result of worn wiper blades not being able to glide over the surface of the glass evenly.

SMEARING OR STREAKING OF WINDSHIELD

When wiper blades become worn, the pressure on the windshield may become uneven leading to smearing and streaking on the glass.

CRACKED, SPLIT, TORN OR DISCOLOURED RUBBER

When the rubber on the wiper blades become worn, they may crack, split, tear or become discoloured, resulting in ineffective operation of the blades.

BENT WIPER FRAMES

When the wiper frames are bent they are not able to make proper contact with your windshield, therefore not clearing the windshield effectively.

CHANGE IN SEASON

Winter wiper blades are designed specifically with water repellent materials to help prevent ice build-up and allow the blade to remain flexible in the cold.

EXPERT TIPS

- Smearing and squeaking can sometimes be solved by simply cleaning the blades and windshield
- Change front blades in pairs and the rear wiper at the same time
- Keep windshield clean and ensure you are using Motorcraft Windshield Washer Fluid
- To maintain blades, wipe periodically

Do you need new wipers?
